

**REMARKS**

Applicants gratefully acknowledge that the Examiner has found patentable subject matter in claims 21-28 and 32-34.

The foregoing amendment in the title provides a title more clearly descriptive of the invention, the one suggested by the Examiner in the pending Action, paragraph 1. The objection to the title is therefore believed to be overcome.

The foregoing amendments cancel claims 14-15. Their rejection under 35 USC 102(e) is therefore now moot.

Claim 25 is also cancelled. Its subject matter now appears in claim 21 as amended previously.

In view of the above amendments, Applicants urge that the pending claims are clearly patentable over the art of record, and that this application is otherwise in condition for allowance.
